

Agent B... int. reviewing his brief about Hall-not in 1983) and access to all of his files. He looks very much like he is 287 (Odum 1) and has agreed that we can take his picture to show if it is not. He has an artist helping now, through Steve. I stayed with him when I was there. No time for full, exciting story. Maybe one of men in later Gingo pictures was in Patrick's group, may have been in Dealey Plaza. Patrick may have been. Am. I got the pictures and they are being analyzed. We can locate Patrick and a man who fled MC when the Garrison case surfaced. When I asked Howard about Patrick, he said, "You think you have done your homework!" Interesting. He is near LA.

I have begun to suspect that Hall may play on Mr. B's team. Some confirmation. His wife knows he may not recover, if what she has been told is the truth, and takes that calmly. But she goes up the wall at mention of Howard's name. He was, I think, with Hall 2/15/64 when FBI interviewed, working there for Mt. Whitney Luber Co. But the FBI did not interview him until later! Then in L.A.

There is supposed to be a medical statement that Hall's major problem is the result of a scratch, not the hepatitis. He says he lost 2,000cc of blood at a Veteran's Hospital (Swatalla) where he is during what is usually a simple liver tap for a ~~known~~ biopsy. The scratch, presumably, was not self administered. He is in great pain. They gave him morphine when I was with him. He had pain spasms under that.

There is a new man working with Turner and us. I have grounds for suspicion. I cannot detail it now. It is not at all conclusive, but despite his seeming performance, which could be contrived, I think care is vital. Steve knows about it. I got this stuff and showed it to him. I'd best not say what it is. He may be able to show it to you soon.

Thanks to everyone for all the wonderful help. The source quoted by the homosexual who phoned in on Jim's show was a Herb Caen column. I wish I'd been able to stay there a week longer. I must find a way to get back before the trial, but my finances are worse than ever. This one was a real blow, for I'd not have gone if I hadn't expected the major costs to have been paid, as promised. Can you please see if you can get what is due from a year ago? I do need it, especially now. My wife will be glad up for at least a month. Please excuse haste.

The cryptic phone message from John may have deceived me. Is it just feedback? I expected a mailing from you. When it didn't arrive I wondered. As you probably realized, my feeding was for a purpose. I thought it had achieved some success.

The DeLoe document is in C in MC, 101-2. Probably Paul made a copy. Please try and get credit if anyone uses it. I understand Moore is really one Jose Morejon, Elsie Dearing (Doering), alias Moro, now a captain in Special Forces in Vietnam. My source is a good one. I turned this over to Jim when I dug it up and have heard nothing since. At the same time I told him that two public employees, one of whom is Max Gonzalez, had dope on Ferrie. He knew Max and said he'd talk to him. I guess this is the result. Probably I'll next see him on TV giving Mort or Mort credit.
